Skills Lab: Introduction to Understanding Curation

Medtronic

This training will highlight how to successfully curate within Skills Lab. Curation needs to be planned and purposeful. The content driving the curation needs to be solid and have clear objectives to meet the learners' needs and outcomes.

GETTING STARTED EXPLORING SKILLS LAB

Skills Lab: What Makes a Great Curator?

Skills Lab: What Makes a Great Curator?

Key Learning Points

- Apply curation skills to your new Skills Lab curation role.

- Discover and define your curation practices.

Five Traits of a Great Curator

Curation is, in essence, the art and science of separating the gems from the junk, adding story and context to focus the learner on the most relevant information, at the right time. Great Curators also have goals or objectives for their Pathway -- decided upon and written **BEFORE** they start curating.
What Makes a Great Curator?

Apply Custom Principles

Apply **curation principles** - principles that were designed to create engaging, personalized, and relevant learning.

Know Your Learners

Know your learners on a deeper level. Understand **why** learners learn, **how** they learn and meet them where they're at.

Share Your Mindset

Shift from creating learning to creating and **curating learning experiences.**

Leverage Insights

Rely on **data** and **insights** to inform decisions about design and content.

Know the Product

Know Skills Lab. Use your product knowledge, to **leverage** the best of the platform to **support** the **learner**.

Great Skills Lab Curators have five things in common:

1. Application of Custom Principles

2. Share Your Mindset

3. Know Your Learners

4. Leverage Insights

5. Know the Product

Curation Greatness: What Do Great Curators Practice Daily?

Great Curators start with the below traits when Curating. Take a look at these items for your **Curation Practices**.

Target Audience

Who is Your Target Audience?

Define your target audience. This will aid in choosing the best goals, objectives and structures for your Pathways.

Focus

What is the Focus of your Pathway?

Use your expertise or recent learning experiences to curate resources for the skills you are targeting. Reflecting on your experiences will help you to pinpoint what worked and what did not. **Match Skills** to the Plan or Pathway **goals/objectives**.

Goal

What is the Goal of your Pathway?

Start your planning thinking about **what the learner is going to know, do, or say differently after completing** this Pathway.

Close the window and return to your Pathway to continue learning more about curation in Skills Lab.

Complete the content above before moving on.
