Getting Started with Skills Lab

Here is why Skills Lab helps users to focus on learning.

Skills Lab Home Page

(Click Image to Enlarge)

The Skills Lab platform lets users access learning content from tools such as Cornerstone, SharePoint, internal websites, knowledge management articles, podcasts, externally-provided training, and much more.

Getting Started with Skills Lab Video Tour

As we begin learning more about Skills Lab let's think of it as the front door to learning. You'll be able to curate content from paid content providers, internal content such as slide decks, internal and (with permission) external videos, podcasts, documents, etc. All this, along with curated, open, free resources referred to as "freemium" content. Let's get started!

Click this **Getting Started with Skills Lab** link to watch a short video to help you get started with Skills Lab**.**

🔒   Complete the content above before moving on.
